

2011 Musto Performance Skiff World Championships Accomodation

Black Rock is a domestic suburb of Melbourne, about 20km south of the central city. Its immediate neighbouring suburbs are Sandringham to the north, Highett to the east, Beaumaris to the south and Port Phillip Bay to the west.

There is virtually no commercial accommodation available in Black Rock itself, within walking distance of the club. Generally when visitors come for a regatta the club tries to find a spare bedroom in a member's house, like a billet or a bed & breakfast, or maybe the use of a member's whole house if they happen to be on holidays during this period. Any financial arrangements for this accommodation would be between the owner and guest.

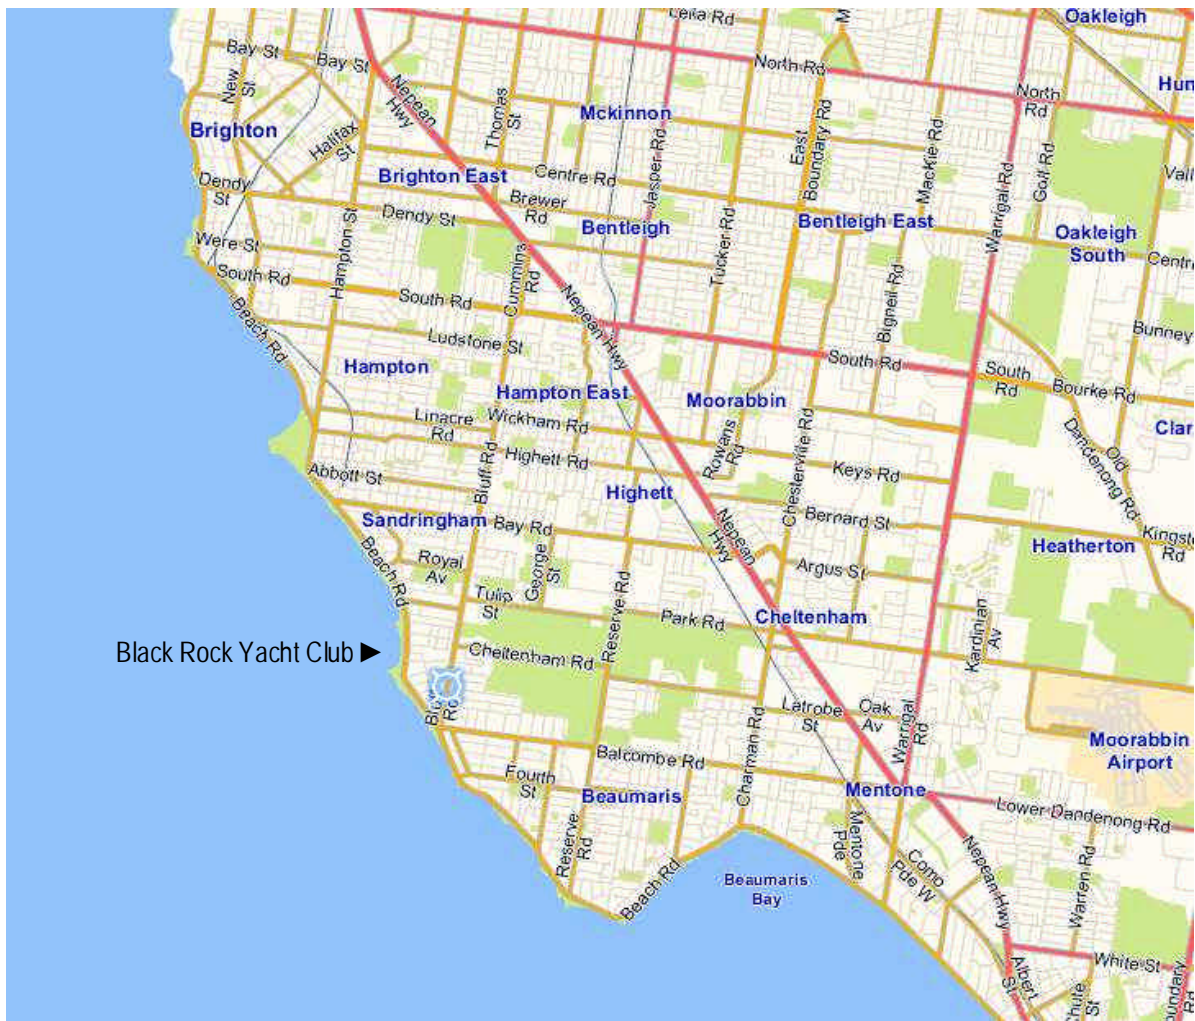

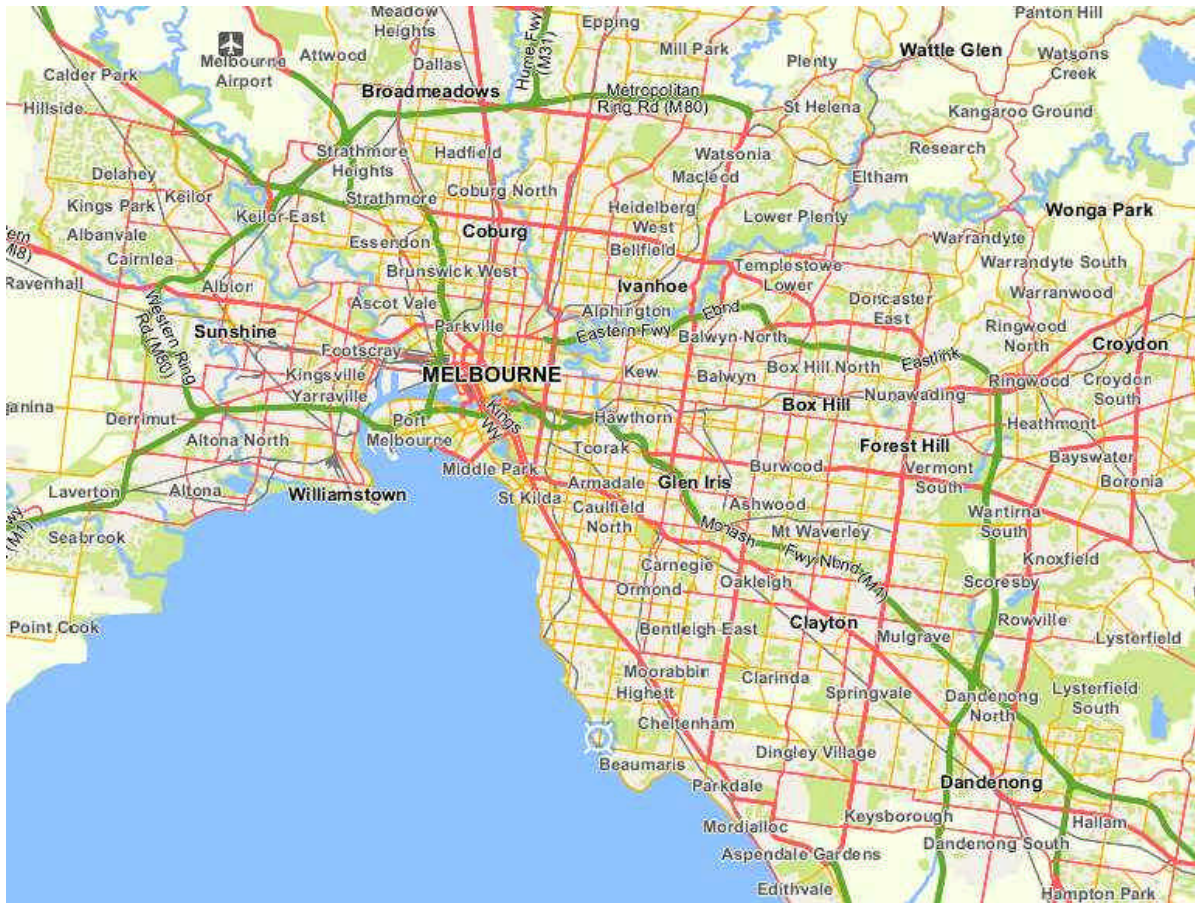

We will try our best to find willing members to offer their homes and co-ordinate matching offers with requests. For anyone who would like this type of accommodation, please visit the Homestay Program page on the Black Rock Yacht Club web site and register your contact details, including number of people travelling, preferred type of rooms or house: <http://www.bryc.yachting.org.au/>

Melbourne is quite spread out, and the public transport system basically doesn't work. If you are staying further than walking distance from the club you will probably need to rent a car, or pack a bike in with your container.

St Kilda is roughly 20mins by car closer to the city, but still on the beach. It is an action packed suburb full of bars and restaurants.

Camping in this part of Melbourne is not really an option, unless you set up in someone's back yard. If you are planning on an extended trip to other parts of Victoria and Australia the camping facilities out of the cities are excellent.

Also for general information about Melbourne: www.visitmelbourne.com
www.melbourne.citysearch.com.au/

The following list sets out the commercial accommodation within a reasonable distance of the club:

General: www.staybayside.com.au

There are many other hotels, backpacker hostels etc. in the St Kilda area, probably best to try one of the accommodation search engines like: www.wotif.com
